

Intellixir

Structured Document Analysis Web Platform

For Technology Landscaping and Drive Innovation

Agenda

Our
company

Who
we are?

System created in the French Atomic Agency (CEA)
in 1997-1999

INTELLIXIR created in 2002/11

Working with near 30 larges organizations in cosmetic,
pharma/bio/med, chemistry, aerospace, material, food and energy
industries.

On going development based on voice of customers

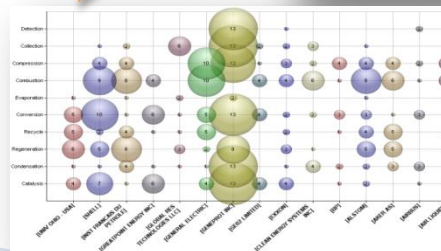

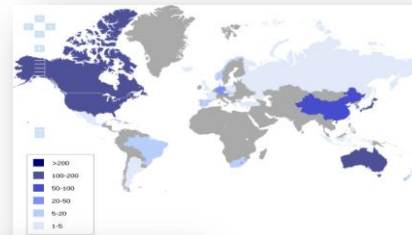

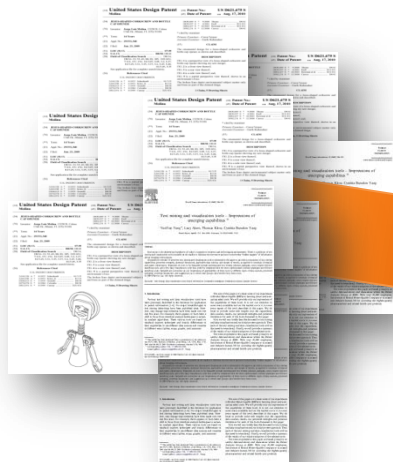

Agenda

Our company

What do we do?

INTELLIXIR develops a web platform analyzing patents and non-patent literature, exported from commercial and internal databases, to produce dynamic and interactive graphical representations used by SciTech organizations to monitor their competitors and to detect emergent information
