II-SDV
Nice, 20-21 April 2015

International Information Conference on Search, Data Mining and Visualization

The **2015 II-SDV** meeting takes place in NICE 20–21 April 2015 for an intensive two days. The meeting provides an international forum for those in the field of tools for advanced search applications, data and text mining, and visualization technology. The primary focus is on tools for intelligence and the meeting examines the requirements of specialists in scientific, patent and technical information

II-SDV

The meeting will be of interest to those who wish to update themselves and keep in touch with the leading edge of information search and analysis tools and technologies; it features approximately 20 speakers for the two days. There will be an adjacent, focused **exhibition** to complement the conference programme.

Keep in touch with the best tools for intelligence

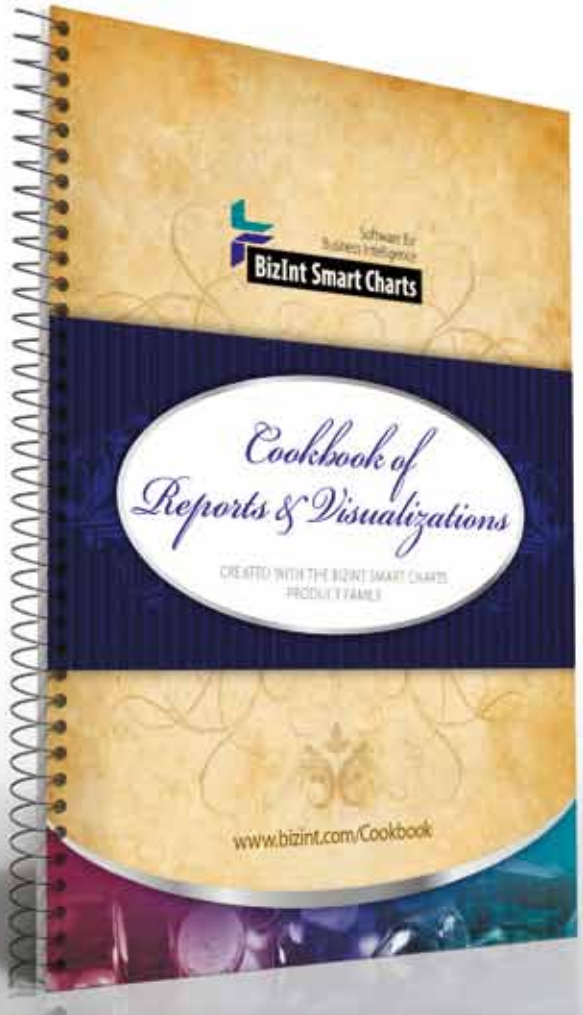
Sharpen your focus!



The *Cookbook of Reports & Visualizations* shows how you can use tools in the BizInt Smart Charts product family to support product lifecycle planning and portfolio management.

- Integrate data from the leading patent, drug pipeline, clinical trials and sequence databases.
- Create reports and visualizations tailored to the needs of your analysts and decision makers.
